Let's Start!

Committing to a decision.

Learning Outcome

Accurately use information about people's backgrounds in a wider variety of communicative situations.

Ask your partner:

- What are the qualities of a good friend?
- When you have to make a big decision, who do you talk to and why?
- Do you think it's better to discuss big decisions with friends or family? Why or why not?

Can Do Statements

- I can talk about social activities and decision-making.
- I can express possibility and necessity.
- I can speculate about things, people and events.

Let's Explore!

Sally **appreciates*** all of Vanessa's support.

* "I appreciate it" is a formal way of saying *thank you*.

Instructions: Read the text aloud.

Sally: Hello?

Vanessa: Hi Sally! I'm calling to see if you have resolved your dilemma or if you are still wavering.

Sally: Well, I was on the fence for a while, but I think I might take a chance and register for the floristry course at the college.

Vanessa: Wow! Have you made your final decision?

Sally: Yes, I have to bite the bullet and commit to this. The course is supposed to start in two weeks so I must register this week.

Vanessa: Congratulations! That's very exciting! You have to be really proud that you're venturing into this.

Sally: Yes, I am but I'm also a little intimidated.

Vanessa: You're supposed to be a bit nervous when you make a big change. That's normal. I think that once you meet some people and make some friends in the class you might feel more self-assured.

Sally: You could be right. You must be tired of listening to me talk about this! I really appreciate all the support you've given me.

Vanessa: That's what friends are supposed to do! I'm sure that you would do the same for me.

Sally: Of course! You must know that you can talk to me about anything in your life and I'll be here for you.

Vanessa: Thanks Sally! Now let's talk about what we can get up to this weekend! Let's do something fun!

Learning Points

Modals for Possibility and Necessity

You use modals when you want to express possibility and necessity.

You use *may*, *might* and *could* to express possibility in the past and in the future.

**Might* suggests that something is less possible than *may*.

- *might* / *might not* + infinitive
- *could* / *could not* + infinitive
- *may* / *may not* + infinitive

Expressing Necessity

You use *must* or *have to* to express that something is necessarily true.

Example:

I have to bite the bullet and commit to this.

Examples:

- *I might take a chance and register for the floristry course at the college.*
- *You could be right.*
- *You might feel more self-assured.*
- *I have to bite the bullet and commit to this.*

Learning Points

Be Supposed To

You use the structure *be supposed to* when you want to talk about expectations, obligations or arrangements.

You can use *be supposed to* to talk about situations in the past, present or future.

The structure is:

Subject + To be + *supposed to* + verb

Present: *I am supposed to register for the course today.*

Past: *I was supposed to register for the course yesterday.*

Future: *I am supposed to register for the course tomorrow.*

****Pronunciation tip**:**

When you say *be supposed to*, you link the /d/ and /t/ sounds together.

Like this:

Be suppose_to

Examples:

- *The course is supposed to start in two weeks so I must register this week.*
- *You're supposed to be a bit nervous when you make a big change.*
- *That's what friends are supposed to do!*
